## Our Fight For Victory!

For business is campaigning. It has all the elements of courage except bodily risk. It has its watchwords, its standards. There is the ever-alertness for the concealed antagonist, the sudden surprise of crafty competition. There are enemies worthy of your steel—and there are guerrillas whose pot-fire is aimed at your back.

And the campaign is always on. The last trench is never dug. There are no winter quarters. The bugle is forever sounding the advance. Fatigue is cowardice. Failure is treason. Napoleon's troops slept on the march, but they moved forward, always forward. New cries were invented to rouse them. "The Cossacks are coming," and the scout would startle the sleeping heroes into new energy.

Push forward! March on! Keep your armor burnished. Get the range of your opponent. Study his equipment, then your own, and press into use the overpowering strength of better weapons. "God is on the side of the heaviest artillery"—success is a general who has cowards for enemies and slaves for troops. Push your campaign. Take new rallying cries and fight competition to the death.

Do not fail to have a look at our HOLIDAY GOODS.

**A DOLLAR APIECE FOR ALL LEPERS**

Mrs. Walter Hoffmann Sends Two Bags of Silver to Molokai

Mrs. Walter Hoffmann yesterday despatched on the steamer Lehua for Kalaupapa, Molokai, in care of Charles Wilcox, Secretary of the Board of Health, two bags of silver dollar pieces, containing in all \$993, there being just that many lepers in the Leper Settlement. This means the distribution of a dollar apiece from the receipts of the benefit concert.

A dollar apiece will also be given to those lepers held at the Kailhi receiving station, this city. If the Kailhi receiving station desire a luau instead of the money they will be so entertained. The balance of the money realized from the recent successful concert will be spent in toys for the children. The total amount reached nearly \$1,000.

In all the 1,000 dollars which the managers realized there was found one lone counterfeit dollar. Tarn McGrew of Bishop's bank kindly gave the ladies a good dollar for the false one and will keep it for a souvenir.

**DELIRIUM NOT INSANITY.**

Sam Ah Kee Put in Irons and Imprisoned Through Error.

A pitiable case was brought to the notice of the hospital attendants yesterday morning. Sam Ah Kee, well known in this city, was confined in the police station Saturday and Sunday through a mistake of his relatives. On Saturday Sam appeared to become violently insane and he was taken to the station to prevent violence to himself and finally, inside the prison the unhappy Chinaman became even more unmanageable, and it was necessary to put irons on his wrists. A brother of the prisoner did not believe him insane, and summoned a physician.

Dr. Howard went with the brother to the prison, and upon examination immediately pronounced Ah Kee dangerously ill and on the verge of pneumonia. The poor fellow had been simply delirious when his family had thought him insane, and his confinement was a cruel mistake.

As there was no charge against Ah Kee the clerk allowed him to be taken away in the patrol. Dr. Howard is still attending the unfortunate man, and pronounces him still delirious though improving. He is now a patient in the hospital.

**READY-MADE HOUSE.**

Imported Here From Seattle at a Cost of \$300.

A novelty has come into the Islands in the shape of a ready-made house imported from Seattle. It belonged to Harry Evans, and cost him just \$300. He immediately sold it to D. Dole of Wahiawa at a handsome profit. Mr. Dole will have it transported to Wahiawa as soon as possible.

This house was furnished by the West Coast Trading Company, who have recently sent two representatives, W. P. Barry and J. A. Byrne, to this city, in search of orders. The company has headquarters at Puget Sound, and deals in portable houses and building supplies extensively.

The first house that came to the Islands came from the Sound, and may be seen in Napoopoo, Kona. Several other portable houses have been successively set up in the Islands, and some of them, though three or four years old, are still in first-class condition. This method of foreign carpentering promises to become popular.
